intrepid SOUTH AFRICA

A VERY WARM WELCOME TO **INTREPID SOUTH AFRICA 2016**, presented by Wines of South Africa. *This trade tasting aims to showcase South Africa's bold and dynamic winemaking nature, which has grown in stature as the country has gained confidence, knowledge and maturity. Over 100 producers are here today, demonstrating how important the UK, as the leading export market for South African wines, is to the industry.*

Trends this year are positive as South African total exports to the UK are increasing in value, up 2 per cent by value to June 2016, the rand per litre price to the UK market has increased 12 percent over the same period and value exports of packaged South African wines to the UK are up 8 percent.

South African wine has never enjoyed so much positive attention and there is plenty to taste today to show you why leading commentators are often citing South Africa as the most exciting wine producing nation in the world. South Africa delivers great quality, personality and its own distinctive style across all price points.

In addition to the many fantastic producers here today, we invite you to

experience the Tasting Trail with nine stations around the room, presenting different themes, designed to tell the many stories around South African wines. The Tasting Trail will also contain wines from other countries, highlighting South Africa's confidence in producing world-class wines, while also demonstrating that South Africa has honed its own style and identity. At various times throughout the day you can meet and chat to our winemakers at the stations, see further details in this catalogue.

The Wines of South Africa UK team will be on hand throughout the day, if you have any questions or need assistance. We are also joined by Wines of South Africa's CEO, Siobhan Thompson.

We hope you have a very enjoyable day tasting.

Wines of South Africa UK market manager

Each bottle of wine should contain the unique story of its vintage. For us, making wine right now in South Africa, is about being part of a revolution that is changing the ideals of winemaking. It is shifting the emphasis back to the farmers and the small-scale wine producers, who in their separation of laudable vineyards and attention to small batches of wine, are able to showcase the best South Africa has to offer. I now have the privilege of teaming up with my parents, Dunstan and Trish Hogan. We make our wines at a cellar in the Banhoek valley. It is an exciting time and place to be a winemaker. I hope you will experience it with us, in each bottle of our wine.

Twelve years ago, a lady came to buy wine. She asked for anything but Shiraz. "I don't drink Shiraz", were her exact words. I poured her a glass of wine. She loved it and bought 3 cases. It was a straight Shiraz. That was the birth of "The BLANKBOTTLE Winery". My goal was to create an honest wine brand that has no limitations when it comes to style, vintage, area or cultivar in order to break down any preconceived expectations. Having no indication of cultivar on the bottle makes this possible.

AA Badenhorst Family Wines is owned and run by Hein and Adi Badenhorst formally of the southern suburbs around Cape Town. This is where they first learnt to appreciate wine and the culture they thought was associated with it. Kalmoesfontein, that majestic property on the foothills of the world famous Paardeberg MOUNTAIN range, is home to their wines. The wines are made with no respect for the old fashioned, hipster, craft-mentality kind of world we live in - the winery and winemaking methods are un-apologetically modern and high tech and flashy and slick. Old vineyards are nice but modern winemaking is better.

At Darling Cellars our wines are all about location and our old, un-irrigated bush vines. In one word: terroir. We don't make our wines; we grow them. The Darling area is on the West Coast and is best known for Shiraz, Sauvignon Blanc as well as old vine Chenin Blanc and Pinotage. With unique growing conditions, the dryland farmed vineyards ensures deep-rooted vines and therefore produce wines with an optimal concentration of colour, flavour and tannin structure. 96% of our vineyards are un-irrigated bush-vines so yields are very low and the quality proportionately high.

The generation-to-generation tradition on which Springfield is built is in its' fifth cycle. Old fashioned methods still find a place in this cellar where 80% of the harvest is fermented with native yeast and most wines are bottled unfiltered. The master vintner, Time, is paramount, with time to settle, time to do the clarification and the maturation in an unrushed fashion. We invite you to taste this unique and different wine made by the fifth generation team, brother and sister, Abrie and Jeanette Bruwer.

Oldenburg Vineyards is tucked away in the mountains in the stunning Banghoek Valley of Stellenbosch. We believe we have some of the finest terroirs in South Africa, with magnificent views, and a truly unique and beautiful setting. Careful study of our soils, temperatures, wind variations and sunlight aspects led us to plant Cabernet Sauvignon, Cabernet Franc, Syrah, Merlot, Chardonnay and Chenin Blanc, plus a few interesting blending varieties. Central to our belief is the fact that great wines come from the highest quality grapes. What happens in our vineyards needs to be without compromise in order to deliver the potential offered by our cool mountain terroir.

GROOT CONSTANTIA is South Africa's oldest and most famous wine producing estate, dating back to 1685. The trademark is one of the oldest surviving in the world. The land, situated behind Table Mountain, was granted to Simon van der Stel which he named "Constantia". The farm had several owners of which two were female. The Cloete family put Groot Constantia on the map from 1778 to 1885. Constantia wine was coveted across the globe and those who were fortunate enough to taste it soon refused to settle for anything less. Members of the British Royal House, Napoleon Bonaparte, King Louis Philippe of France, Frederick (The Great) of Prussia, the Lord Seventeen of the VOC, and many other dignitaries coveted the Constantia label.

INTREPID SOUTH AFRICA TASTING TRAIL

AROUND THE TASTING YOU WILL FIND **9 STATIONS** THAT WILL CREATE A TASTING TRAIL. Each station will have 18 wines which can be tasted. At various intervals throughout the day, a winemaker will be available to chat to you about each theme, meaning that you can follow the trail around the room and meet winemakers as you go. There will be two tasting stations where you can taste all 18 wines blind and there will be some wines from other countries included at all the stations.

The wines at the tasting trail stations will be available for you to taste at any point during the day. At allocated times below, you will find winemakers, owners and brand ambassadors ready to take your questions and impart some of their passion about the wines on each tasting trail station.

1. **DRIVEN BY PASSION:** CHENIN BLANC

11h00 – 11h30

Danie Steyler, winemaker at Kaapzicht and Corlea Fourie, winemaker at Bosman

One of South Africa's calling cards, this tasting showcases Chenin Blanc. The winemakers' passion for this grape variety shines through as each wine at this station is either 100% Chenin Blanc or contains at least 85% of the variety.

2. **DRIVEN BY EXPLORATION:** OFF BEAT REDS

11h30 – 12noon

Andrea Freeborough, winemaker at Nederburg

Exploration is the name of the game at this station with winemakers seeking out the right terroir and finding new ways to create off beat reds. Here you will find unusual red varieties, regions or varietal blends but all have interesting stories. We have included both single varietal wines and blends although each wine will be off beat and not run of the mill.

3. **DRIVEN BY HISTORY:** PINOTAGE

12noon – 12h30

Danie Steyler, winemaker at Kaapzicht and Anthony Hamilton Russell, proprietor of Hamilton Russell
